WORK EXPERIENCE

Flutter Developer

ApiniLabs AG

06/2024 - Present

Basel, Switzerland

Achievements/Tasks

- Built a scalable lab management app in Flutter with Firebase (Firestore, Functions), enabling real-time multi-client sync and boosting data performance by 30%.
- Integrated Crashlytics and Performance Monitoring, achieving > 99.5% crash-free sessions and optimizing slow traces by 35%.

Lead Flutter Developer

Stage Coding

09/2023 - 06/2024

Travnik, Bosnia and Herzegovina

Achievements/Tasks

- Led development of a Flutter enterprise time tracking app with offline-first UX and Node.js backend, ensuring zero sync issues and high data accuracy.
- Mentored 2 juniors, establishing standards and improving code quality and team velocity by 30%.

Flutter Developer

Tech387

10/2021 - 09/2023

Sarajevo, Bosnia and Herzegovina

Achievements/Tasks

- Delivered 6+ apps in hospitality, fitness, and social/productivity using Flutter, Firebase, AWS (AppSync, Cognito, S3), Google Play, App Store, Stripe, and Monri.
- Implemented AI workouts, biometric login, media features, and subscriptions, maintaining > 99% crash-free sessions and increasing retention by 25%.
- Improved app performance by up to 60% via lazy loading, background syncing and caching strategies.

EDUCATION

Software Development

Faculty of Electrical Engineering

10/2021 - 06/2023

Sarajevo, Bosnia and Herzegovina

Courses

- Software Development program focused on programming principles, algorithms, and software engineering.

TECHNICAL SKILLS

Dart	Flutter
JavaScript	Node.js
Firebase	AWS
Git	GCP
Cross-Platform Development	UI/UX optimization
Mentoring	Modular architecture

PERSONAL PROJECTS

Cabloan (01/2023 - 02/2024)

- Developed *CabLoan*, a cross-platform ride-sharing app with live driver tracking, in-app payments, ride history, and real-time status updates. Integrated Google Maps, geolocation services, and secure payment gateways to ensure smooth, reliable user experience.
